

DEVELOPING EXCELLENCE IN LEADERS & ORGANIZATIONS

Arcadia Group delivers powerful solutions to increase and accelerate value by developing a company's leaders, talent process, culture and organization in alignment with the key business outcomes. We believe improving the people improves the company.

360 ASSESSMENTS

Arcadia Group's assessment portfolio includes 360 assessments that provide a comprehensive view of leader strengths and weaknesses by considering perspectives from all angles. Arcadia 360 assessments produce a feedback tool helps your key talent develop, improve, and advance.

WHY CHOOSE US

Deep Industry Experience:

In over 30 years of designing and delivering human performance solutions, we have learned that the greatest and most sustainable change comes from a pragmatic yet holistic approach.

Consulting Expertise

We begin by focusing on the key goals of the company and then align the right activities and key competencies to achieve these goals.

Rapid Value Creation

Using a human operating model as a map for leader development, we help clients develop powerful mindsets that directly impact business outcomes.

LEADERSHIP DEVELOPMENT

360 Assessment

- Whether you want to enhance the leadership skills of your high potentials or help a struggling leader get back on track, 360-degree assessments are a powerful development tool.
- Our 360-degree assessments are coupled with a development and coaching plan that provides individuals with a comprehensive assessment of their competencies and behaviors to better understand their leadership skills and performance.
- Our 360 assessments provide objective, accurate, and candid feedback that:
 - Shows employees where they stand on the key competencies that are critical to success.
 - Shares how they are perceived by and impact those around them.
 - Details potential derailing behaviors.
 - Provides a foundation for a personalized growth and development process.
 - Gives supervisors crucial insight into candidate strengths and weaknesses.
